

ANTI-THEFT LOCKABLE UNIVERSAL ROOF BARS

SUM-001 FITTING INSTRUCTIONS

IMPORTANT
READ FULLY BEFORE FITMENT AND
KEEP INSTRUCTIONS FOR FUTURE REFERENCE

We do not recommend the use of rooftop tents with these roof bars

1. Open clamp lever A and loosen adjustment knob B.

2. Position bars on the roof as illustrated

3. Slide clamp over roof rails.

4. Tighten adjustment knob B securely onto roof rail

5. Close clamp C; the lever should be flush with the top of the load bar when closed. check roof bar tightness by firmly pushing/pulling on the end of the roof bar. It should NOT slip. If necessary repeat step 4 in order to achieve sufficient tightness.

6. Follow steps above to lock & unlock

IMPORTANT INFORMATION:

- After an initial short journey IT IS ESSENTIAL that a check MUST be made to ensure that all the fittings are tightened and secured. The roof bars should then be inspected at regular intervals to ensure load safety at all times
- When roof bars are in use, the vehicle's stability may be affected. Special care MUST be taken when driving in strong winds and when approaching bends or other road hazards. Also, please refrain from accelerating and braking sharply.
- Remove the roof bars if you intend to drive through a car wash!
- Take extra care when fitting to a vehicle with a glass roof!

WARNING: MAXIMUM LOAD FOR THE ROOF BARS COMBINED IS 60KG, DO NOT EXCEED THIS LIMIT!

It is ESSENTIAL that this weight is distributed evenly over both bars.

Please refer to the vehicle operation manual for any special requirements for using roof bars.

Use an adequate number of quality tie down straps to secure your load (elasticated ropes should be avoided).

In case of long loads secure the ends of the load with non-elastic rope to the vehicle bumpers, do not exceed 55mph.

PLEASE LOOK AFTER YOUR TWO KEYS AS SPARE KEYS ARE NOT AVAILABLE.

Always take extra care when fitting to a vehicle with a glass roof!
